This will be a “hands own” session. Clay will assist our Supply Chain members to place plates, screws, etc. & learn the various types of implants used in their facilities.

9:00 – 10:00 am

AI Data Supply Chain Status

[Kimberly Whitehead | Associate Professor of Quantitative Management | Anderson University](#)

The future is here, and artificial intelligence and deep learning systems are enabling new advances in workplace education and learning. We will discuss the current state of AI, uses in the classroom and workplace training. We will also explore specific implications and advances in AI for health care systems. We will start with definitions and examples to be the foundation of our discussion. The goal will be to share ideas of how we can leverage these advances in our own workplaces.

10:00 – 11:00 am

Creating & Sustaining Value in Healthcare

Barbara Strain | Principal | Barbara Strain Consulting, LLC

The objectives for this presentation includes:

How to define healthcare

What data is needed to determine value & where to get it

Who do you need to have on your team to do this work

Aligning with organizational strategic direction to meet or exceed goals.
